# **Independent Auditors' Report**

The Chairman Western and Central Pacific Fisheries Commission:

We have audited the accompanying general account fund statements of assets, liabilities and fund balance of the Western and Central Pacific Fisheries Commission (the Commission) as of December 31, 2008, and the related statements of income and expenditures and changes in the fund balance, of cash flows and of appropriations and expenditures for the year then ended. These financial statements are the responsibility of the Commission's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards, which are consistent with the generally accepted auditing standards referred to in the Commission's financial regulation 12.4, require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Commission's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

As described in Note 2 to the financial statements, these financial statements were prepared in conformity with financial regulations of the Commission and certain accounting standards adopted by other international organizations, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America.

In our opinion, such financial statements present fairly, in all material respects, the financial position of the general account fund of the Commission as of December 31, 2008, and the results of its operations and its cash flows for the year then ended, on the basis of accounting described in Note 2.

We have also issued our report dated March 23, 2009, on the Commission's compliance with financial regulation 12.4(c) and our consideration of the Commission's internal control over financial reporting as required by the Commission's financial regulation 12.4(d).

### 2. <u>Summary of Significant Accounting and Financial Reporting Policies of the Commission,</u> <u>Continued</u>

### Assets

Cash and term deposits comprise funds on deposit in operating accounts, interest bearing bank accounts, and petty cash holdings.

The asset Contributions receivable is matched by a Provision for delays in collection of the outstanding contributions, in accordance with United Nations System Accounting Standards. This is done in the interest of prudence and no judgment is made about collectability.

Acquisitions of capital assets are charged against expenditure accounts in the year of purchase, hence furniture, equipment and other non-expendable property are not included in the assets of the Commission appearing in the Statement of Assets, Liabilities, Reserves and Fund Balance. The estimated total of non-expendable property held by the Commission is stated in note 5.

#### **Provisions**

In addition to the Provision for delays in collection of the outstanding contributions mentioned above, provision has been made to return \$256,000 to members by way of reduced contributions in 2009 as a result of a WCPFC5 budget financing.

#### Use of Estimates

The preparation of financial statements can require management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates and any adjustments that may be necessary would be reflected in the year in which actual results are known.

# **Taxation**

The Commission is exempt from taxes and custom duties as follows:

Within the scope of the official activities, the Commission, its property, premises and assets and its income, including contributions made to the Commission under the Convention, shall be exempt from all national taxes. Goods, including the Commission's publications, motor vehicles and items for official entertainment purposes that are intended for the official use of the Commission shall be exempt from all customs and excise duties payable at customs, except payment for services.

Goods imported or purchased under an exemption shall not be sold or otherwise disposed of in the Federated States of Micronesia (FSM), except under conditions agreed in advance with the FSM National Government.

The Commission is subject to Pohnpei State Tax and is working with the national government to implement a reimbursement arrangement for those taxes.
