**Reports from TCC and Associated IWG meetings**

Dear All,

I am pleased to advise that the CDS-IWG03 summary report has now been finalised and is posted on the WCPFC website CDS-IWG 2016 meeting page. This version updates and replaces the draft report that was tabled at TCC12, to incorporate comments received from participants and edits from the Secretariat. The final report can be accessed from this link: <http://www.wcpfc.int/meetings/cds-iwg-2016>

The draft reports for TCC12 and FAD-MgmtOptions-IWG have been posted and are circulated for participants' comments. These draft summary reports are available on the relevant meeting page, and for ease of reference these are the links:

- <http://www.wcpfc.int/meetings/tcc12>
- <http://www.wcpfc.int/meetings/fad-management-options-intersessional-working-group-2016>

CCMs and Observers are asked to provide comments to the Secretariat on the two draft summary reports by close of business in Pohnpei on **Monday 14<sup>th</sup> November**. As with past practice we ask meeting participants to comment on their own text and not that of others. In addition, the text for the recommendations has been placed in the decision boxes, and to confirm that these are based on the agreed outcomes documents from the respective meetings.

Yours sincerely,

**Feleti Penitala Teo, OBE  
EXECUTIVE DIRECTOR**
