ANNUAL REPORT TO THE COMMISSION

PART 1: INFORMATION ON FISHERIES, RESEARCH AND STATISTICS

Purpose: To provide relevant information to the Commission on fishing activities of CCMs and cooperating non-CCMs, including management and compliance issues. The report should include all fishing activities for highly migratory species being undertaken within the Convention Area as required by the Convention and decisions by the Commission.

**PART 1: INFORMATION ON FISHERIES, RESEARCH AND STATISTICS
(Summary information for the 2019, complementary to data submitted)**

Part 1 of the Annual Report is due one-month prior to the annual regular session of the Scientific Committee.

Part 1 of the Annual Report shall include the following, completed box at the front of the report.

Scientific data was provided to the Commission in accordance with the decision relating to the provision of scientific data to the Commission by 30 April 2019	NO
If no, please indicate the reason(s) and intended actions: In 2019, Thailand as a cooperating Non-Member, the participatory rights of Thailand in WCPO are limited to the provision of carrier and bunker vessels only, thus, Thailand did not collect any scientific data in WCPFC.	

1 ABSTRACT

As a Cooperating Non-Member, the participatory rights of Thailand in WCPO in year 2019 were limited to the provision of carrier and bunker vessels only. Thailand has 5 (five) fish carrier vessels listed in WCPFC Record of Fishing Vessels. In 2019, there was no fish carrier vessels from Thailand operated in the Convention Area.

2 TABULAR ANNUAL FISHERIES INFORMATION

Tabular Annual Fisheries Information - [national fleet], for years [x-5] to [x-1]

The following table shows the suggested captions for the tables and figures required in Annual Report Part 1 covering Annual Fisheries Information.

Suggested Table / Figure caption
Table 1. Annual catch and effort estimates for the [National fleet], by gear and primary species, for the WCPFC Convention Area and [other broad ocean area], for years [x-5] to [x-1].
Figure 1 Historical annual catch for the [National fleet], by gear and primary species, for the WCPFC Convention Area presented as a line graph.
Figure 2 Historical annual vessel numbers for the [National fleet], by gear for the WCPFC Convention Area presented as a line graph
Table 2. Number of [National fleet] vessels, by gear and size category, active in the WCPFC Convention Area, for years [x-5] to [x-1].
Figure 3 Annual distribution of target species catch and effort by the [National fleet] active in the WCPFC Convention Area, for years [x-5] to [x-1].
Table 3. Observed annual estimated catches of species of special interest (seabird, turtle and marine mammals) by gear for the [National fleet], in the WCPFC Convention Area, for years [x-5] to [x-1] to the extent available.
Table 4. Annual estimated catches of non-target, associated and dependent species, including sharks, by the [National fleet], by gear and species, in the WCPFC Convention Area, for years [x-5] to [x-1] to the extent available.
Table 5. Estimated annual coverage of operational catch/ effort, port sampling and observer data for the [National fleet], by gear, active in the WCPFC Convention Area, by gear, for years [x-5] to [x-1].

Notes : In 2019, Thai carrier vessels did not operate in the Convention Area, therefore Thailand has no transshipment information to report to WCPFC.

3 BACKGROUND

Thailand requested the Commission for the status of Cooperating Non Members (CNM) and was accorded in 2010, the participatory rights of Thailand in the WCPO are limited to the provision of carrier and bunker vessels only.

During 2015-2019, Thailand has amended the fisheries law for several sections in order to be consistent with the international regulations and improve the monitoring, control and

surveillance measures (MCS). These included port-in/port-out control, vessel monitoring system (VMS), reporting of fishing logbook, observer deployment and other electronic tools for MCS (E-Reporting System and E-Monitoring System).

ANNUAL FISHERIES INFORMATION

Essential information

I. Annual Catch and Effort by Primary Species and Gear in the WCPFC Competent Area

As a Cooperating Non-Member, Thailand has participatory rights limited to the provision of carrier and bunker vessels only. In 2019, no Thai fishing vessel operated in the WCPFC Competent Area. There were only Thai carrier vessels listed in the WCPFC Record of Fishing Vessels for fish transshipment but these vessels also did not operate in convention area in 2019.

II. Number of vessels

In 2019, Thailand has 5 (five) fish carrier vessels listed in the WCPFC Record of Fishing Vessels for transshipment of fishery production from this competent area. The vessel names are as follow;

- | | | |
|------------------------|-----------------|-----------|
| 1. Asean Marine Reefer | Registration No | 460001769 |
|------------------------|-----------------|-----------|

2. Asean Marine Reefer 2	Registration No	470004272
3. Patsorn	Registration No	530003172
4. S.Leelawadee	Registration No	460003923
5. Sirichai Reefer	Registration No	447400203

III. Fishing patterns (catch by time/area)

Thailand in WCPO are limits to the provision of carrier and bunker vessels only

IV. Estimated total catches of non-target associated and dependent species (if available)

Useful information

V	Developments/trends in the fishery (changes in fishing patterns, fleet operations, target species, level of transshipment, etc.)
VI	Associated socioeconomic factors (which may influence or explain the above trends)
VII	Disposal of catch (fresh/frozen/other)/market destination (export/domestic)
VIII	Onshore developments (processing plants, support facilities, etc.)
IX	Future prospects of the fishery (long term viability, expansion/contraction, etc.)

RESEARCH AND STATISTICS

X	Summary of observer and port sampling programmes (scientific data)
XI	Research activities (tunas, other species, species of special interest, oceanographic influences, etc.)
XII	Statistical data collection systems in use (describe)
XIII	Data coverage of catch, effort and size data for all species

Notes : In 2019, Thai carrier vessels did not operate in the Convention Area, therefore Thailand has no transshipment information to report to WCPFC.
