

**COMMISSION
SEVENTEENTH REGULAR SESSION**

Electronic Meeting
8 – 15 December 2020

**SUMMARY OF THE REPORTS RECEIVED UNDER TROPICAL TUNA CMMs
FROM 2018 TO 2020**

WCPFC17-2020-IP03_rev1¹

2 December 2020

Paper prepared by Secretariat

Purpose

1. This paper provides for information of WCPFC17 the updated versions of tables and notes that summarize the reports made in 2018, 2019 and part of 2020 by CCMs under CMM 2017-01 and CMM 2018-01 of the *Conservation and Management Measure for Bigeye, Yellowfin and Skipjack*. The information in this paper is based on recent information received by the Secretariat. It should be noted that some related replies to CMR or recent reporting may not be reflected in this paper.

Updated Tables and Notes

2. The Tables and Notes in this paper may be categorized into these categories:
 - Summary of Notifications and Reporting to WCPFC related to additional FAD Set management in the purse seine fishery operating 20N to 20S: 2018, 2019 and 2020 to date (*Table 1 – 2*);
 - WCPFC – IATTC Overlap Area (WCPFC9 Decision, paragraph 80) (*notes*);
 - Monthly reports of bigeye longline catches (CMM 2017-01 and CMM 2018-01 paragraph 41) (*Table 3*);
 - Summary of U.S. reporting related to paragraph 29 of CMM 2017-01 in 2018 (*notes*); and
 - Summary of Notifications by Indonesia, Philippines and Chinese Taipei of purse seine effort and/or catch of skipjack, yellowfin and bigeye tuna within their EEZs in 2018 and 2019 (*notes*)

¹ Rev1 replaces the version issued on 26 November 2020, which was an update of WCPFC-TCC16-2020-IP04 and reflects updates since TCC16.

3. Tables 1, 2 and 3 below relate to notification and reporting on additional FAD Set management:

4. The applicable WCPFC decisions and notes on the WCPFC – IATTC Overlap Area are as follow:

(a) The WCPFC9 decision on the application of measures in the part of the WCPFC Convention Area that overlaps with the IATTC Convention Area says that in the case of a WCPFC member who is also an IATTC member, and who has vessels on both records/register of IATTC and WCPFC, the corresponding flag Member shall decide and notify both organisations under which of the two Commission measures those vessels shall operate when fishing in the overlap area with IATTC and WCPFC. If a CCM is a member of only one RFMO, the rules of that RFMO will apply in the overlap area between WCPFC and IATTC, even if the CCM is a cooperating non-member of the other RFMO. (see WCPFC9 Summary Report, paragraph 80)

(b) CMM 2018-01 paragraph 10 states that:

Where flag CCMs choose to implement IATTC measures in the overlap area, any calculation of limits for the Convention Area (excluding the overlap area) that are done on the basis of historical catch or effort levels, shall exclude historical catch or effort within the overlap area. Notwithstanding decisions on application of catch and/or effort limits, all other provisions of this measure apply to all vessels fishing in the overlap area.

(c) In 2020, the Secretariat received one update on 8 July 2020 of Member's choice of WCPFC/IATTC measures in the Overlap Area.¹⁹ Accordingly, in 2018, 2019 and 2020, or as otherwise specified the following six CCMs could apply IATTC measures in the Overlap Area:²⁰

- Ecuador – As a WCPFC Cooperating Non-Member which is a contracting party of IATTC;
- El Salvador – As a WCPFC Cooperating Non-Member which is a contracting party of IATTC;
- Panama – As a WCPFC Cooperating Non-Member which is a contracting party of IATTC;
- European Union – In accordance with letter received by WCPFC on 2 April 2013;
- Commencing February 2019 Nicaragua – As a WCPFC Cooperating Non-Member which is a contracting party of IATTC; and
- Commencing 8 July 2020, the United States of America – In accordance with letter received by WCPFC on 8 July 2020.

¹⁹ United States advised of an update to their notification in response to the WCPFC9 decision, that notifies that effective from 22 July 2020 all IATTC management measures will apply and some WCPFC management measures continue apply in the Overlap Area. Previously the United States had notified that it would apply only WCPFC measures in the overlap area effective from 26 April 2016. (WCPFC Circular 2020/65)

²⁰ The list is a subset of the list of notifications received for the overlap area, the complete list of notifications can be accessed by authorized CCM users from the WCPFC Secure CCM side: <https://www.wcpfc.int/overlap-area-iattc>

5. Table 4 provides the summary of monthly reports of bigeye longline catches (CMM 2017-01 paragraph 41 and CMM 2018-01 paragraph 41):

Table 4: Summary of CCM reporting of bigeye longline catch by WCPFC in accordance with CMM 2017-01 paragraph 41 and CMM 2018-01 paragraph 41 - as at 2 December 2020 (Note: some CCMs replies to dCMR or most recent reporting to WCPFC may not be reflected below)

6. During 2018, the United States provided four quarterly reports to date, in respect of the utilization of its EEZ limit during 2018 (CMM 2017-01 paragraph 29). The United States notified that the U.S. EEZ limit was not reached by October 1, 2018, so no further changes were authorized.
7. No notifications were received during 2020 related to notification of EEZ limits for purse seine effort and/or catch of skipjack, yellowfin and bigeye tuna (CMM 2018-01 paragraph 25). Previously the following notifications of EEZ limits for purse seine effort and/or catch of skipjack had been received:
- Philippines – At WCPFC16 the Commission noted that the Philippines submitted DP25. The Philippines advised this was set at 42,000 fishing vessel days in lieu of the original submission, based on the current capacities and conditions of the small purse seine fishing vessels operating in the Philippines Pacific seaboard EEZ. These include wooden hulled ring net/purse seine fishing vessels.
 - Chinese Taipei – 59 days (~34 purse seine vessels)
- The Republic of Korea has also clarified that CMM 2017-01 paragraph 25 and CMM 2018-01 paragraph 25 does not apply to Korea.
