1. Introduction

Under the Compliance Monitoring Scheme (CMS) Members report certain data and information to allow the implementation of CMMs and any trends or issues associated with implementation or the CMMs themselves to be assessed. Many of these reporting requirements are embedded in the Convention, CMMs or other WCPFC decisions. Some of the provisions specify that CCMs are to provide this information in Part 1 or Part 2 Annual Reports, and others are to be reported to the Secretariat by specific dates.

This document gives an overview of these reporting obligations and links them to the different reporting processes, templates (where established) and timeframes. The aim is to assist members to understand the scope of reporting, and how and when they need to report data and information to the Secretariat. Tables give more detail on each reporting obligation, and where the specific data/information for each obligation is to be provided.

Table 1 is a checklist that the Secretariat has updated to assist CCMs with quickly identifying these requirements for 2021 (for RY2020). The requirements in Table 1 are listed in the following order:

- Part A = overarching requirements and templates;
- Part B = CCM-level or Quantitative Limits in CMMs for tuna and billfish;
- Part C = Additional measures for tropical tunas;
- Part D = Mitigating fishing impacts on species of special interest, including non-target species;
- Part E = Operational requirements for fishing vessels eg VMS, RFV; and
- Part F = Activity related eg observers, reporting catch, transshipments, HSBI.

Table 2 lists future reporting requirements for CMMs that are in effect from 1 January 2020 and therefore, will be part of reporting for RY2021.

2. Key Dates for CMS Reporting Obligations

The following diagram is an overview of the key CMS processes and shows the timeline for providing each of the reports to the Secretariat. The Annual Reports and CMR reporting templates referred to in this diagram are also referenced in Table 1 below in the column 'AR PART 2 SeqNo (and notes)', identifying where each obligation is reported.

Colour Key:

Green and **blue** boxes: due date for CCMs to provide reports to the Secretariat.

Orange: due date for Secretariat to release the Compliance Monitoring Report (CMR) for all Members, Cooperating Non-Members and Participating Territories (CCMs).

Black: indicate the three key WCPFC meetings. CCMs AR Pt 1 submissions are published as part of SC meeting documents and may be reviewed during the SC meeting. The draft CMR prepared by the Secretariat considering CCMs annual reports and other available data sources, is reviewed at TCC and a Provisional CMR is finalized for forwarding to the Commission. The Commission will adopt the final CMR at its regular annual session, usually in December.

A full and current list of WCPFC annual reporting deadlines may be accessed, as an ICAL link and CSV export through the ["Upcoming Events" page within the WCPFC website calendar](#).

3. Reporting Requirements

The following diagram sets out the topics used to group specific RY2020 reporting obligations from the Convention, CMMs or other WCPFC decisions and relates them to the Parts of Table 1 (below). The groups are designed to simplify how members identify the obligations they need to report on as they work through this checklist to complete 2020 reporting.

For ease of reference:

- i. The heading row for each **PART (A-F)** of Table 1 below has been colour coded according to the below diagram.
- ii. The column 'AR PART 2 SeqNo (and notes)' identifies CMR reporting (as distinct from other reporting such as Scientific Data and Annual Report Part 2 (AR Pt2)) using the colour key - **CMR Reporting**.

¹ The SeqNo field, also includes a notation of **(R)** for **reports**, and **(L)** for **quantitative limits** eg **Q-020(R)** is a “report”, **Q-001(L)** is a “limit”, whereas **Pr-001** or **Q-047** are “implementation” questions. A prefix of “Pr” is used for the Annual Report Part 2 (Prior Year Obligations) questions, and prefix of “Q” is used for the Annual Report Part 2 (2020 Specific) questions.

² Scientific data to be provided to the Commission, as refined and adopted at the Thirteenth Regular Session of the Commission, Nadi, Fiji, December 2016.
