

INTRODUCTION

This Booklet provides as a compendium the currently in force Conservation and Management Measures and Resolutions. Conservation and Management Measures (CMMs) are adopted at the annual Commission meeting which is typically in December. CMMs usually become binding 60 days after they are adopted. For example, a booklet dated 2014 would contain all the valid CMMs until a given date in February of the following year 2015.

For completeness, all current CMMs are included in this Booklet, and they are provided in the form as agreed by the Commission.

Notes on Interpreting Commission Decisions

Based on the nomenclature that was adopted at the Second Meeting of the WCPFC (see WCPFC/Comm2/29 14 December 2005)

Conservation and Management Measures (CMMs) describe binding decisions relating to conservation and management measures addressed to members of the Commission and Cooperating non-members.

Resolutions describe non-binding statements and recommendations addressed to members of the Commission and Cooperating non-members.

Both are sequentially numbered and include the year of adoption.

Some CMM's will remain unchanged each year. However when changes to existing CMMs or if new CMMs are agreed by the Commission there is usually a 60 day period after the regular WCPFC annual session ends, and before the decision comes into effect. Occasionally, the Commission agrees to delay the start date of a CMM to allow more time for Members to implement the decision, and this will be specified in the body of the CMM. In other instances the rules and requirements in a CMM are specific to set periods of time.

The short-hand reference to the relevant Conservation and Management Measure is commonly CMM 20xx-xx and for Resolutions it is Res.20xx-xx. Such decisions are sequentially numbered and include the year of adoption.
