Kia ora Glen and Lara

Thank you for providing the draft principles and workplan for comment.

We're happy with the principles document, you've covered off the range of considerations required very well.

We only had two comments:

1. In III (b), can you please clarify whether it is CCM implementation [of obligations] that is the focus, or whether this was meant to be CMM implementation as a focus.
2. This is a terminology comment, but the list seemed to be more topics [for further discussion] than principles.

The workplan also looks fine. It's a tight timeframe if we are to get this agreed at WCPFC15!

Kind regards
Megan
